

Re: Docket# 98N-1038, "Irradiation in the Production, Processing, and Handling of Food."

I want the FDA to continue prominent labeling of food that has been treated with irradiation. The label should be conspicuous and include the logo for irradiation.

Your Signature: Rhannon Meisshke

Additional comments: The current labeling of nutritional information is hardly adequate. ie. it does not differentiate between sugars from fruit or refined others. It should also state whether vitamins are part of the food or sprayed on chemicals
